

CLASIFICACION DE TWEETS CON NLP

ANSWER

A bar chart titled 'lugares de habla inglesa' comparing percentages across three regions. The y-axis represents the percentage from 0 to 100. The x-axis lists the regions: '60' (likely referring to the Andes), '80' (likely referring to the Amazon), and '100' (likely referring to the Pampas). The bars show approximately 60% for the Andes, 80% for the Amazon, and 100% for the Pampas.

Region	Percentage (%)
Andes	60
Amazon	80
Pampas	100

FALSOS

REVIEW

palabras como fuego e inundación tendían a predecir mejor si estos se referían realmente a un desastre natural
